

COVID-19 GUIDELINES ADDENDUM

Please be aware that during this unprecedented event of the Coronavirus pandemic, we are updating our policies to maintain safe standard practices recommended by the CDC and the Illinois Department of Health guidelines to ensure the safety of your children and staff alike. The Park District Manager will be conducting in-services, prior to the start of the summer with the counselors/staff, so that they may be prepared and able to respond effectively and have all the appropriate information and resources needed to provide a safe environment for your child in preventing the spread of COVID-19 or any other infectious disease.

We have developed a "checklist" (attached) for the parent/guardian to review each day your child plans to attend school for any possible COVID-19 symptoms. The counselors will also keep an assessment if your child develops any symptoms during the school day. Currently, known symptoms of COVID-19 are fever, cough, shortness of breath or difficulty breathing, chills, fatigue, muscle and body aches, headache, sore throat, new loss of taste or smell, congestion or runny nose, nausea, vomiting or diarrhea.

Wildwood Park District Summer Camp Programs will follow these recommended practices:

- Maintaining social distancing (students will remain in small groups and remain 3-6 feet apart when possible)
- Wearing face coverings for outdoor camp activities will be at the discretion of parents/guardians. Current outdoor camp activities are spread out, involving physical activity and running in warm and humid temperatures where masks or coverings are not conducive to physical activity of that nature. Counselors/campers will be asked to wear face coverings when appropriate indoors especially when handling snack time and certain close quarters activities indoors and can be relaxed depending on further guidelines or nature of the current activity. We will have disposable face masks on hand if necessary/wanted.
- Model and practice hand hygiene before and after eating, coughing, sneezing, playing outside and using the restroom. The counselors/staff will encourage frequent and proper handwashing. The Park District will have sufficient availability of supplies, including soap, paper towels, hand sanitizer, tissues, etc.
- After each camp day, there will be a complete cleaning and disinfection of the classrooms and restrooms, as well as any equipment used
- Playground equipment should be monitored for number of students allowed at one time, and maintain appropriate cleaning of equipment

COVID-19 SYMPTOM CHECKLIST

Child's Name _____

Is child experiencing any of the following COVID-19 symptoms

- Fever or chills
- Cough
- Shortness of breath or difficulty breathing
- Fatigue
- Muscle or body aches
- Headache
- New loss of taste or smell
- Sore throat
- Congestion or runny nose
- Nausea or vomiting
- Diarrhea

This list does not include all possible symptoms. CDC will continue to update this list as we learn more about COVID-19.

This form is provided to help you make decisions and seek appropriate medical care.
