### Recommendations

- 07/11/2022 Perform Oil & Filter Service on 7/11/2022 or 84500 Miles.
- 07/11/2022 Our inspection found the front caliper lines are corroded and the front brake pads are seized in their brackets and the rear calipers are stuck and wont compress. The brake booster is leaking. Both upper control arm bushings are dry rotted and the front shocks are heavily worn and the rears are leaking. There are two broken exhaust hangers.

**Subject:** Fwd: Request for Quote - deck/walkway at Sunset Beach Park

Corrected bid.

Price to build a 40" x 24' long deck using treated lumber framing with composite decking, anchored to the ground with auger type anchors.

\$6,300.00 for Trex decking.

\$6,300.00 for Timbertech Azek decking.

Price includes disposing of existing pier pieces and prepping ground for a gravel base for deck to rest on. If pier is to sit on cement piers instead of gravel, we would have to discuss it as a building permit would be required. If WWPD is removing and disposing of existing pier pieces, a credit of \$300 would be given.

I recommend Timbertech over Trex because Trex has wood particles which decay. Timbertech is solid pvc. Another recommendation would be to make it a concrete walkway. Stamped concrete can be made to look like wood. This is not a project that I would bid on.

Quote is valid for 30 days.

On Jul 27, 2022, at 11:43 AM, Wildwood Park District Accounting <[accounting@wildwoodparkdistrict.com](mailto:accounting@wildwoodparkdistrict.com)> wrote:

The Wildwood Park District is seeking quotes to replace old pier pieces being used as a deck/walkway at Sunset Beach Park, 33285 N. Lake Shore Drive, Grayslake, IL.

**\*\*Owner will remove and dispose of the existing old pier pieces which are sitting along the top of the seawall and lawn\*\***

Scope of Work – install a permanent deck to replace the existing pier pieces. This deck should be made of durable materials such as top grade Trex Decking or your recommended materials (please specify the reasons for your

recommendation). Deck should measure approximately 40" wide and roughly 24 feet in length. Weed protection, such as black plastic with gravel, should be installed under the decking. Anchor to the ground, not the seawall. As this deck/walkway runs along the boat launch, there needs to be a boat tie up securely mounted on the deck approximately 6 feet from the lake end of the deck, not the seawall.

**Please submit your written quote by 5:00 PM Thursday, August 11<sup>th</sup>** so that they may be made available to the Wildwood Park District Board of Commissioners during their General Session Meeting on August 15<sup>th</sup>.

**Date:** Friday, August 12, 2022 at 1:31:07 PM Central Daylight Time  
**From:** Wildwood Park District Accounting <accounting@wildwoodparkdistrict.com>  
**To:** Brandon Magnini <bmagnini@wildwoodparkdistrict.com>  
**Attachments:** image001.jpg, image003.jpg, image002.jpg, image001.png

Final Bid Price will be less \$300 as we will remove and dispose of the existing deck pier pieces ourselves, so total bid id \$6000

I clarified with Rick as to what specific auger type anchors he is proposing.

This is what I was thinking of. Not to support the deck, to stop it from flying away in high winds. I will bolt these to the deck frame.
